

**Viewed by:** Learners

**Topic:** Browse/search the Learning Zone catalogue

**Description:** Searching for courses to find a scheduled offering to meet your development needs.

**Content:**

Once in the **Learning Zone**, on the **My Learning** page, navigate to the **Find Learning** section at the right hand side of the page.

In the **Find Learning** area, you can find learning in two ways:

- As soon as you start typing in a course name, suggested titles will come up based on what you have typed which you can select. Then select **Go** to be taken to a results page with all relevant items, or
- You can also select **Browse all courses**, taking you to the **Catalogue** page, where you can select the magnifying glass in the **Search** field to see all the courses you've been given access to

Once you are on the **Catalogue** page, you can **Browse by Topic**, which allows you to look at available learning by subject area.

Once results are listed, you can filter these further, by **category** and **delivery method** using the drop-down options under the **Refine By** heading on the left.

Once you have found a suitable learning solution, you can assign it to yourself using **Assign to Me** or enrol onto it if it is a course (scheduled offering) to be attended at a particular date and time.

For help with this process, view help texts describing how to [Register onto an instructor-led/virtual learning course](#) for enrolling onto a classroom/virtual training course or [Register onto an e-learning course](#) for launching an online course.
