

# **OXFORDSHIRE MINERALS AND WASTE LOCAL PLAN**

## **PART 2 – SITE ALLOCATIONS**

### **ADDITIONAL SITE CONSULTATION (Regulation 18 Consultation)**

January 2020

## Introduction

Oxfordshire County Council is now preparing the Oxfordshire Minerals and Waste Local Plan: Part 2 – Site Allocations (the Sites Plan). The main purpose of the Sites Plan is to allocate the sites required to provide the additional capacity for minerals supply and waste management as set out within the Minerals and Waste Local Plan: Part 1 – Core Strategy.

Since the last Minerals and Waste Local Plan: Part 2 Site Allocations Plan consultation (Regulation 18) in 2019, Oxfordshire County Council have received an additional two sites for consideration.

These are:

- Site 291: Bradfield Grove Farm
- Site CR25: Shipton on Cherwell SW Extension

Information on these sites, including a location map, is included below. The site nominations are highlighted in purple. We are seeking feedback on whether these sites should be allocated for inclusion within the Sites Plan (Regulation 18).

As these sites have been submitted following the last consultation, they are not included within the Oxfordshire Minerals and Waste Local Plan: Part 2 Site Allocations Plan (Sites Plan) that is currently on consultation.

**Please note no decisions on these sites have been taken at this time. Along with considering all the responses received during this consultation, the Site Assessments will be undertaken before we prepare the Proposed Submission Plan (Regulation 19).**
