

Notes:

1. All Oxfordshire County Council standard details should be read in conjunction with National Highways 'Manual of Contract Documents for Highway Works' (including Specification for Highway Works and Highway Construction Details), and any project specific contract documentation. In the event of any conflict, this drawing will take precedence over any MCDHW details/specification unless otherwise agreed with Oxfordshire County Council.
2. Work on materials palette delayed pending review.
3. Any construction not covered by these standard details should be discussed with and approved by OCC engineer.
4. Any variation from these standard details should be discussed with OCC engineer prior to installation.
5. All vertical curves should be in accordance with DMRB CD109.
