

Match + one

You can encourage child's language development by using 'match + one'

Here's how to do it:

If your child says '**cat**', match what they say and + one more word.

e.g. '**cat gone**'

If your child says '**mummy car**', match what they say and + one more word

e.g. '**mummy's driving car**'

or '**mummy's blue car**'

or '**mummy's dirty car**'

If your child says '**truck go fast**', match what they say and + one more word

e.g. '**big truck go fast**'

or '**red truck go fast**'
